Infrastructure

## NHERI SUMMER INSTITUTE

June 16-17, 2021

The fifth annual NHERI Summer Institute will be held on June 16-17, 2021, at the University of Texas at San Antonio's (UTSA) Downtown Campus.

Early-career faculty, K-12 educators, engineers, and researchers interested in learning more about the Natural Hazards Engineering Research Infrastructure (NHERI) community are invited to register.

Topics of the two-day event include:

- The NHERI mission
- Grant proposal development
- NHERI Network facility capabilities
- Requesting research resources within the NHERI Network
- The NHERI Science Plan
- DesignSafe computational research and data management

There is no fee for attending the NHERI Summer Institute, and everyone is welcome to participate. Attendees must register so organizers may plan event spaces, accommodations, and meals for the week. Early-career faculty (i.e., non-tenured professors) and early-career professionals can apply for travel funding.

## REGISTER NOW

Register online at [designsafe-ci.org/learning-center/summer-institute/](https://designsafe-ci.org/learning-center/summer-institute/).  
Deadline for registration is March 3, 2021.

*"It was a great experience. I had the opportunity to learn a lot about NSF proposal writing, use and capabilities of NHERI Experimental Facilities, and integration of teaching and research."*
